## VaporRemed® Case Histories

**Heating Oil Spills** are expensive to treat and affect health of homeowners. Even after expensive cleanups home is not free of fumes.

### Case I

#### A spill in a basement in Ohio

Excavated pit after spray with VaporRemed® removed fumes in minutes.

The basement with new furnace installed in less than three weeks after spray with VaporRemed®

## VaporRemed® Case Histories (Continued)

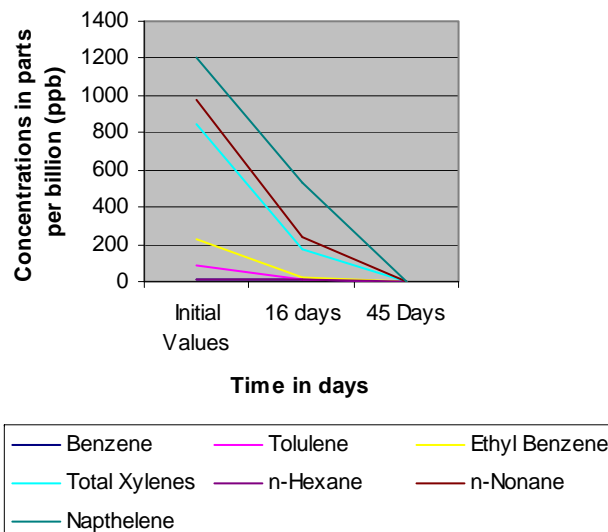

### Case II.

After a heating oil spill in a Virginia residence, fuel oil was trapped in the cinder block wall and the fumes migrated to the living room. VA DEQ approved treatment with VaporRemed® and after first injection, the fumes were eliminated permanently.

### Case III

Another residence in Virginia, had persisting fumes in the basement and the first floor from an earlier spill. Even after the clean up and sealing the basement, fumes remained. In less than two months, all gaseous hydrocarbon constituents were reduced below the limits of detection by VaporRemed®. (See figure below).

Air quality in basement

## Freeze-Resistant VaporRemed®

### Customer Quotes

“I have been working for Leffler Energy for about 24 years now and have tried many products that promised to remove, cover up or eliminate oil odor. Your Product Vapor Remed is the first one to live up to the promise in every way. The day after using your product home owner called and said she noticed an immediate improvement. I am so convinced that your product is the only thing to use that I will be spreading the word.”

*Tim Jackson, Leffler Energy, PA*

“We had a spill in the church building 15 days before Christmas. Spill was mopped up but the fumes remained. We sprayed VaporRemed and before the end of the day the fumes were gone.”

*Mike Gaiser, Southern Maryland Oil, MD*

“.....the product did what it said it would do. I also spray it on our carpets and sofas to see if worked in getting oil fume smell out and it did. I would recommend this product to all the fuel oil companies here in Long Island.....”

*Robert Aguilar, Homeowner, Long Island, NY*
